Amatika 46%

THE 1ST VEGAN GRAND CRU FROM THE HEART OF MADAGASCAR'S PLANTATIONS

Valrhona's curiosity and passion is what guides us on our never-ending journey to explore the infinite possibilities of pleasure that chocolate has to offer. And with the birth of **Amatika 46%**, we have marked a milestone in the history of decadence by creating **the first Vegan Grand cru, with single Madagascar origin**. The result of passionate teamwork between sourcing teams, cacao producers, innovation and sensory experts and L'École Valrhona's pastry chefs, **Amatika 46%** represents the premium chocolate that contemporary vegan pastry-making has been longing for. A true showcase of chocolatier expertise

VEGAN PASTRY MAKING, A NEW WORLD OF GOURMET POSSIBILITIES

From fashion to beauty, the vegan trend has worked its way into all industries, firmly establishing itself as a legitimate lifestyle in the process. And thanks to the audacity of a few renowned chefs, it didn't take long for it to make its impression on gastronomy, and desserts shortly after. With **Amatika 46%**, Valrhona is giving artisans of taste the opportunity to see vegan pastry-making as a new source of inspiration and a way to stand out from the crowd. This new couverture provides another chance for them to invest in a booming market while at the same time expanding their savoir-faire and pastry-making technique.

Vegan pastry-making, a promise of gourmet pleasure

Common judgements and misconceptions construe vegan pastry-making to be bland, boring and inherently 'lacking'. But the time has come for us to cast these flawed assumptions aside. Vegan pastry-making is actually the doorway into an unexplored world of creativity and flavor, blending the lightness and pleasure that today's consumers seek. The true embodiment of modern-day values.

- **Gourmet**, stimulating creativity and deliciously impressing with new gustatory sensations.
- **Uninhibited and audacious**, with an unbeatable combination of assertive flavor, modernity and natural colors.
- **Healthier and more eco-friendly**, using the best quality and seasonal plant-based ingredients, making it better for both the body and planet.
- **Accessible and open**, attracting connoisseurs from a wide range of backgrounds and offering a guilt-free, conscientious dessert experience.

DESSERTS FOR EVERYONE!

Vegan pastry-making is not only aimed at vegetarians and vegans. It also appeals to the increasing number of flexitarians, people looking to reduce the amount of animal-based products in their diet. The new art form also caters to the needs of those with allergies or intolerances – such as to lactose, eggs and gluten – as well as any epicureans needing to reduce their fat or sugar intake for health reasons. Lastly, it presents a new sensory experience to all inquisitive hedonists looking to explore uncharted territories of confection.

A milk chocolate couverture à la vegan

Valrhona helps artisans of taste make the vegan shift

For many years, Valrhona has been on a mission to better the many facets of **gastronomy, including by helping artisans adopt more sustainable practices**

And vegan pastry clearly has a key part to play in this crusade to create indulgent pleasures that positively impact both people and the planet. However, it still presents a real challenge to pastry chefs, who must rethink their traditional techniques and revise their tried-and-tested methods. The task of the pastry chefs at École Valrhona is to support them on their road to success and provide a helping hand in overcoming the challenges that lie ahead.

To mark the launch of Amatika 46%, Valrhona has worked with experts in the field to develop a large range of vegan desserts. In each country, a leading pastry chef has created a recipe. For APAC, it is Chef Johann Vanier from La Pav's in Australia. This recipe will be part of a recipe leaflet alongside the "100% Vegan" tartelette by Frédéric Bau and three other recipes from L'École Valrhona.

In 2021, workshops on the topic of alternative desserts will be organized by L'École Valrhona to give professionals the chance to discover new sources of inspiration.

Use a 8mm nozzle to pipe out the creamed almonds onto silicon sheets with a slightly smaller diameter than the tartlet. Bake at 345-355°F (175-180°C) for approx. 8-9 minutes. Once cooled, coat the tartlets with melted Amatika and add in the creamed almond disks while the chocolate is still liquid. Garnish with Amatika crèmeux and leave to set in the refrigerator for at least 30 minutes. Place the glazed, piped disks of whipped Amatika crèmeux and then add the hibiscus pieces. Finish off by adding a thin chocolate leaf, and you're done!
