Azélia Rock

chocolate hazelnut coating

AN ORIGINAL RECIPE BY *l'École Gourmet Valrhona*

Makes 6 plated desserts

To be done the day before:

AZÉLIA 35% whipped ganache

To be done on the day:

Soft hazelnut sponge
Crunchy AZÉLIA 35% and hazelnut coating
Nougatine and cocoa nib decoration

Required utensils:

Cheese grater
6cm-diameter cutter

AZÉLIA 35% WHIPPED GANACHE

Preparation time: 15 minutes

Rest time before use: at least 2 to 3 hours

110g Whipping cream 35%
10g Glucose syrup
10g Invert sugar or honey
165g AZÉLIA 35% chocolate
295g Whipping cream 35%

Slowly pour the mix (cream, invert sugar and glucose) onto the melted **AZÉLIA 35%** chocolate. Mix in the centre to form a shiny, elastic texture – this is a sign that you are starting to make an emulsion. Maintain this texture throughout the mixing process.

Continue, adding the liquid little by little. Start mixing by hand, then using a hand blender. Set aside.

Mix the ganache with the cold whipping cream.

Leave to set in the refrigerator for at least 2 or 3 hours before whisking.

The texture must be firm enough for the mousse to be used in a piping bag.

SOFT HAZELNUT SPONGE

Preparation time: 20 minutes

Rest time before use: 25 minutes

160g Egg yolks
110g Caster sugar
105g Plain flour
125g Finely ground hazelnuts
70g Unsalted butter
190g Egg whites
70g Caster sugar*

Whisk the egg yolks. Add the sugar. Whisk by hand or in a food processor until the mix whitens and doubles in volume, creating a thick and smooth cream which flows in ribbons and falls back to the mixture leaving folds when you raise the whisk. In the meantime, melt the butter and set aside. Sift together the flour and finely ground hazelnuts. Beat the egg whites until they form soft peaks, while slowly adding the sugar. Mix part of the beaten egg white with the yolks and sugar. Add the sifted flour and powdered hazelnut to the mix, then the remaining egg whites. Finally, add the melted butter. Bake at 180°C on a tray with a stainless steel frame for 25 minutes. Cool, then use a plain round 6cm cutter to cut the sponge into discs. Store in the refrigerator.

*See the nutrition tip section at the end of the recipe for an alternative to the sugar.

hazelnut and chocolate coating (Continued)

CRUNCHY AZÉLIA 35% AND HAZELNUT COATING

Preparation time: 5 minutes

400g **AZÉLIA 35%
chocolate**
60g **Grape seed oil**
60g **Caramelised hazelnuts**

Melt the **AZÉLIA 35%** chocolate and add the other ingredients to it. Soak the soft hazelnut sponge discs (made in the previous step) in this mix. Leave to set on a rack and store in the refrigerator.

COCOA NIBS & NOUGATINE DECORATION

Preparation time: 15 minutes

Rest time before use: 10 minutes

75g **Caster sugar**
1.5g **Pectin NH**
65g **Unsalted butter**
25g **Glucose syrup**
5g **Water**
85g **Caramelised cocoa
nibs***

Thoroughly mix the pectin NH and sugar. Heat the water, glucose and butter together. When the mixture reaches 45°C, add the pectin and sugar mix. Bring to the boil then add the **caramelised cocoa nibs**. Spread thinly and evenly between 2 sheets of baking paper. Set the oven to 180°C to bake until the nougatine turns a amber caramel colour. Take out of the oven, cut into 4cm diameter discs. Leave to cool on a rack.

**See the Chef's tip section at the end of the recipe for an alternative to cocoa nibs.*

ASSEMBLY

VALRHONA chocolate fèves at the chef's discretion
Hazelnut slivers (optional, to garnish)

On each hazelnut coated sponge disc, pipe the **AZÉLIA 35%** whipped ganache using a fluted nozzle. Place a sesame nougatine decoration on each dessert, along with hazelnut slivers. Using a cookie cutter, arrange some chocolate powder at the bottom of the dish. To make your own homemade chocolate powder, grate your choice of chocolate fève using a cheese grater. Place a dessert on each plate.

Chef's tip

When making the nougatine decoration, the caramelised cocoa nibs may be replaced by sesame seeds, finely ground hazelnuts and pistachio slivers to give your nougatine a variety of tastes and colours.

Nutrition tip

When making the soft hazelnut sponge, you can replace the sugar with unrefined sugar such as muscovado, to add some extra charm to the recipe.
