

Easter 2022

VALRHONA

Our Commitment

AT VALRHONA,

We work hand-in-hand with our producers and customers to make the cocoa industry fair and sustainable -with products that look and taste great.

Together, let's use good food to make the world a better place.

We are proud to have been awarded B Corp certification, joining a community of businesses that work daily to do the right thing for our world.

All this has been made possible by our Live Long sustainable development program. As well as providing us with an action plan to back up our mission, Live Long commits us to make our entire supply chain carbon neutral by 2025, from plantation to plate.

EVEN MORE NATURAL WITH JUST AS MUCH FLAVOR.

In line with our mission to use good food to make the world a better place, and to inspire creative and responsible gastronomy, we have changed our Easter egg recipe. The recipe has been modified by replacing synthetic flavors and colorants with natural flavors and ingredients with natural coloring properties.

Sunflower lecithin now replaces soy lecithin where applicable in our product ranges, because we are committed to protecting the environment and offering you sustainable chocolate.
